

HANI GUPTA

B.Tech Computer Science Student | MERN Stack Developer | Open Source Contributor

+91 9058931068 | hanigupta1505@gmail.com |

[Linkdin](#) | [GitHub](#) | [Leetcode](#) | [Portfolio](#)

EDUCATION

Mangalayatan University

Bachelor of Technology (B.Tech), Computer Science Engineering

2023 – 2027 | CGPA: 8.20

Rishikul International School

Class XII (CBSE)

2022 – 2023 | Percentage: 70%

Hanuman Prasad Dhanuka Saraswati Vidya Mandir

Class X

2020 – 2021 | Percentage: 75%

TECHNICAL SKILLS

Programming Languages

C, C++, Java, Python, JavaScript, SQL

Frontend

React.js, Next.js, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend

Node.js, Express.js, REST APIs

Database

MongoDB, MySQL

Tools & Technologies

Git, GitHub, Postman, JWT Authentication

AI & GenAI

Prompt Engineering, RAG, Vector Embeddings, Semantic Search, AI API Integration

Core Concepts

Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

PROJECTS

AI Learning Assistant

MERN Stack · RAG · Vector Embeddings · Semantic Search · JWT · Groq AI | [GitHub](#) | [Live](#)

- Developed a full-stack AI-powered learning platform enabling users to upload PDF documents and generate personalized study materials.
- Implemented secure authentication and authorization using JWT.
- Built a document processing pipeline including text extraction, chunking, vector embedding generation, and semantic vector search.
- Developed Retrieval-Augmented Generation (RAG) workflows to enable context-aware document chat and question answering.
- Generated AI-powered flashcards, quizzes, summaries, and learning resources from uploaded documents.
- Designed scalable MERN architecture using React, Node.js, Express.js, and MongoDB Atlas.
- Deployed the application using Vercel and Render for cloud-based accessibility.

ChatReact AI

React.js · JavaScript · Tailwind CSS · Groq API | [GitHub](#) | [Live](#)

- Built a responsive AI chatbot application capable of generating real-time conversational responses.
- Integrated Groq AI APIs to provide fast and context-aware interactions.
- Developed reusable React components and managed application state efficiently.
- Implemented chat history management and dynamic message rendering.
- Designed a modern, mobile-friendly UI using Tailwind CSS with optimized component-based architecture.

OPEN SOURCE EXPERIENCE

Open Source Connect (OSCG) — Contributor

Feb 2026

- Ranked **23rd among 5000+ contributors**.
- Contributed to production-level projects through issue resolution, feature implementation, and bug fixing.
- Collaborated using Git, GitHub, pull requests, code reviews, and maintainer feedback.

GirlScript Summer of Code (GSSoC) — Contributor

May 2026 – Aug 2026

- Contributed to open-source repositories through issue resolution and feature development.
- Collaborated with project maintainers and community contributors using GitHub workflows.

Social Summer of Code (SSoC) — Contributor

Jun 2026 – Jul 2026

- Participated in collaborative open-source development projects.
- Worked with version control systems and contribution workflows.

DATA STRUCTURES & ALGORITHMS

- Solved **200+ problems** on LeetCode covering Arrays, Strings, Linked Lists, Trees, Graphs, Recursion, Greedy Algorithms, and Dynamic Programming.
- Participated in **5 LeetCode contests**; current LeetCode rating: **1385**.
- Regularly practise algorithmic problem-solving and optimization techniques.

ACHIEVEMENTS

- Ranked **23rd among 5000+ contributors** in Open Source Connect.
- Built and deployed multiple full-stack and AI-powered web applications.
- Active contributor in Open Source Connect, GirlScript Summer of Code, and Social Summer of Code.
- Developed scalable MERN applications integrated with Generative AI capabilities.
- Consistently improving competitive programming and problem-solving skills through LeetCode.
